

Fixing Parts and Brackets

About Us

Oz-Aydin Engineering Machinery Electric Metal Industry and Trade Company was established in 2003 in Istanbul Orhanlı-Tuzla and started its operations as a supplier of various electrical and metal parts, mainly for Heating & Cooling purposes.

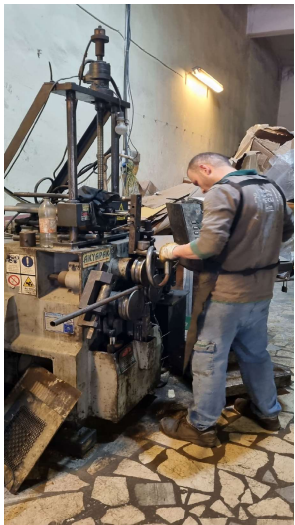

Later, it started to expand into foreign markets by establishing a pipe clamp production line. In addition, it continues to increase its production capacity and diversity by producing air conditioning outdoor unit mounting brackest for the leading manufacturers and distributors of the Turkish industry. In a closed area of 1500 m²; High quality products are produced with eccentric presses in the range of 10-175 tons, hydraulic guillotine shears, steel and copper pipe bending-serpentine machines, decoilers, saws, Argon & Gas & Oxygen sources and electrical panel workshops with on-time delivery and appropriate policy.

Oz-Aydin Engineering company offers successful work with production, purchasing, marketing, engineering, design and technical consultancy activities with our more than 30 years of experience in the sector.

Proction Line&Process

Eccentric Presses 10 - 175 ton

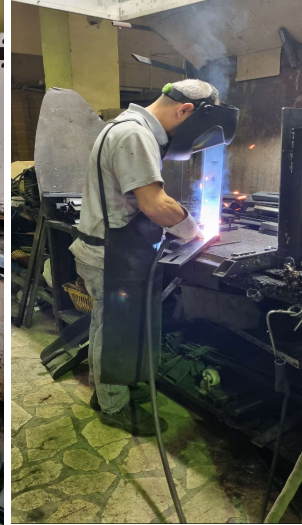

Pipe Bending
(Steel and Copper
pipe serpentine)

Decoiler

Guillotine Scissors

Weldings

Electrical line

Products

PIPE CLAMPS

- Double screwed nut clamps with rubber
- Clamps with rubber and triphon
- Wood screw adapters
- Ventilation clamps
- Sprinkler clamps

FIXING PARTS

- Flanges
- Fittings parts
- Fixing parts

AIR CONDITIONER MOUNTING BRACKETS

- Star K-40 screw type brackets
- Star K-50 screw type brackets
- Star K-60 welded type brackets

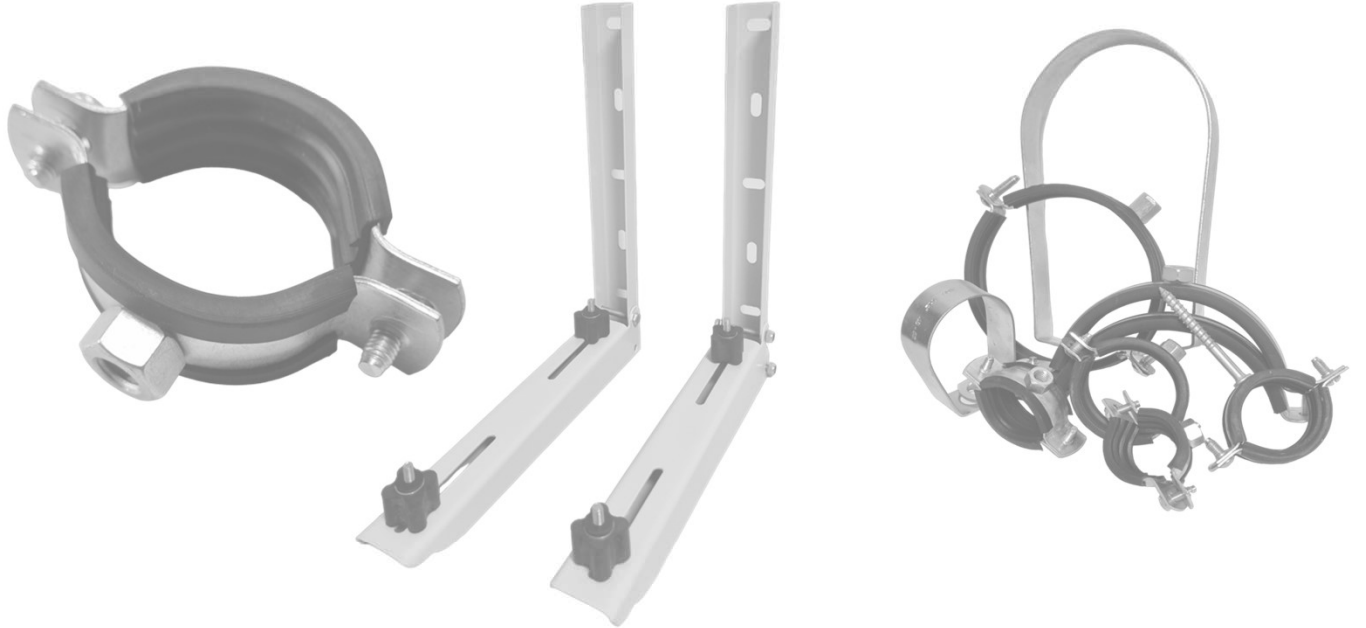

STAR COILS

- Steel pipe serpentine for hot water tanks
- Copper pipe serpentine for small hot water tanks

ELECTRICAL PANEL
